DRILL RENTAL AGREEMENT

- District will be responsible for delivering and picking up the drill (unless other arrangements are made between District and Renter). District is not responsible for stand or rate of seed put on.
- Renter agrees to use and care for drill in careful and prudent manner, and to pay all operating and maintenance expenses while drill is in possession of renter. All rocks must be picked to avoid damaging the drill.
- District will try to route the drill according to requests within areas of the county as much as possible to maximize field time and reduce travel time. If drill use is interrupted due to rain or other circumstances, the District has the option to let drill go to another area where ground is ready to plant.
- Renter will use the drill as soon as possible after receiving it and only on approximate number of acres it was requested for. **Renter will notify District as soon as seeding is completed so as not to excessively delay the drill during busy season. Number of acres shall be the difference between the ending and beginning tally as recorded on the sealed acre tally unit.**
- \$10.00/acre for John Deere No Till Drill.
- \$3.00/acre down payment **required** before receiving the drill. If seeding plans are changed, down payment will be refunded in full.
- \$200 minimum charge for seeding small number of acres
- \$50 charge if drill is not cleaned out by renter after use.
- **Payment is due when seeding is completed.**
- Drill shall be returned to District in as good condition as received, reasonable wear and tear expected. If upon its return to District, the drill is not in such good condition, District may repair it and Renter will pay cost of any such repairs.
- Renter assumes all risk and liability for and will not hold District, its supervisors and employees responsible for any damages, injuries or death to persons and property arising out of the use, possession or transportation of the drill.
