

Commonly Available Garden Center Pesticides - 2011

Dr. John Ball, Forest Health Specialist, South Dakota Department of Agriculture, Extension Forestry, South Dakota State University, email: john.ball@sdstate.edu

The active ingredients and trade names mentioned in this publication are those that are most commonly available in South Dakota and the inclusion of any trade name associated with a particular active ingredient shall not be taken as an endorsement nor the exclusion of any trade name as a criticism regarding effectiveness. Some of these pesticides South Dakota registration ends in the summer of 2011 and they may become harder to find as the season progresses. Please read and follow all label instructions and the label is the final authority for a product's use on a particular pest or plant.
