Grass Seeding Agreement

It is mutually agreed that the following terms apply to the Day Co. Conservation District's Grass Seeding Program.

RATES: \$23.00/acre Cost includes operator, drill and tractor
Minimum charge \$200

District will try to route the drill according to date of requests, areas of the county as much as possible to maximize field time and reduce travel time. If drill use is interrupted due to rain or other circumstances, the District has the option to relocate the drill to another area where ground is ready to plant.

\$5.00/acre down payment required before receiving the drill. If seeding plans are changed, down payment will be refunded upon approval of the Day County Conservation District board of supervisors

Payment is due when seeding is completed.

The site must be properly prepared by the time our crew arrives to seed. If the site is not adequately prepared (firm, rocks picked, weeds controlled, etc) The drill operator has the authority not to do the seeding and will move on to a different site.

The district provides no guarantee on survival of the new grass seeding since weather conditions, seed fitness, care after planting, and weed pressure are critical variables. We will work to the best of our ability.

By Signing below I agree to the above terms.

Please Return this form with your down payment prior to seeding.
